

# Daria Rose Vekic 586661

23/02/2022 - in person

*General Comments*

**Marks 20/20**

## *Inception: Analysis*

You have provided the following documentation for your first stage submission:

 586661 - GU2 Project Plan

 586661 - Planning Phase Part A - Action Plan Report

 586661 - Planning Phase Part A - Project Plan Report

- Student provided a different version of the brief which reflected scenario 2 and was confirmed and approved by the lecturer. The brief was written by the defined deadline. Music Collection Management.
- The student conducted an interview in a professional manner and asked a good variety of questions and provided these prior to discussion. Additional feedback will be listed below for each section that will be marked. The document is presented in a professional manner with a front cover, table of contents, name and page numbers and cross referencing.
- This was an exceptional report, one of the best I received over the last few years. You should be immensely proud of the hard work and passion that you put into this. It was a joy to mark and loved the addition of tea in your resources 😊.

## **Interpretation of the Brief (p 1-16)**

**Marks Awarded: 2/2**

Clear understanding of the brief and possible solutions identified. You have included research of your project with extensive justifications of your choices on development and provided a conclusion and software methodology. Extensive evidence to support your rationale. Excellent section, well done!

## **Requirements (p17-23)**

**Marks Awarded: 4/4**

- Excellent understanding of the functional requirements and highlighted appropriate non-functional requirements from the software brief.
- All requirements from the brief were included.
- Top level use case is included which matches the functional requirement list provided and is cross referenced. Extensive work is done in this section.

- Good clear top level use case diagram.
- Notation is correct and concise.
- Refined models are also complimentary of further analysis and show progression.

### **Information Gathering (p28-38)**

**Marks Awarded: 3/3**

- You have included background research and reasoning for the questions you have presented to the client and conducted a client interview.
- You were well prepared before the interview had taken place and electronic based questions were provided.
- You have also given me responses to the client questions which have been noted appropriately.
- You have explained conclusions drawn from your fact finding and cross referenced each of your section questions to your main functional requirements.
- A variety of background research was included and this justified the project viability and any risks associated.
- You have shown extensive research in several areas from job descriptions to similar systems.
- This is a very well executed section of your report. Well Done.

### **Aims (p38-59)**

**Marks Awarded: 1/1**

- You have indicated the aims of the project; you have also provided a confirmed list of requirements with reflection from the client interview stages and provided a use case diagram to support this. A refinement of aims was also included, and this was to a high standard.

### **Identification of Technical Resources (p60-67)**

**Marks Awarded: 2/2**

- You have identified hardware and software resources and documented how these will be obtained and accessed. Extensive list was given, and sound justifications made.

### **Identification of Information Resources (p60-67)**

**Marks Awarded: 2/2**

- You have provided specific online resources, with the sources identified and reasonable justifications.

## ***Inception: Project Plan (separate document - 586661 - Planning Phase Part A - Project Plan Report)***

**Marks Awarded: 6/6**

### **General**

- You have chosen a specific software development methodology (Unified Process) and this was reflected in your project plan, you have made a good job to provide the schedules for these stages and provided the main important artifacts that would be worked on and generated at each of these stages. Extensive subtasks make your plan easy to follow.

### **Schedules**

- You have clearly shown the stages of the Unified Process in your project plan and the tasks would be correct for each stage, overall, your plan is excellent. You have included some slippage in your project plan.

### **Milestones and deliverables (586661 - Planning Phase Part A - Project Plan Report)**

- Documentation explaining deliverables and milestones have been beneficial and this was a good breakdown. This is included in your project plan.

### **Main tasks**

- You have identified tasks that are included in your project, and you have created a good level of main tasks to somewhat keep tasks on track in the project. You have included predecessors, resource names, task durations. Your additional report covers all bases to justify the structure of your plan.

### **Resources**

- You have shown your resources on your project plan and further explanation has been provided in your "586661 - Planning Phase Part A - Project Plan Report".
